Model: BBA100-1

FCC ID: 2ACCJN022

IC: 9238A-0080

Bluetooth Declaration ID D035591

B. Access to the required information on the e-label

1. Users are able to access the information in no more than three steps in a device's menu. The actual steps are:

*Swipe down from the top of the screen once using two fingers, or twice using one finger. Tap **Settings** > **About phone** > **Regulatory approvals**.*

<i>FCC ID</i>	<i>2ACCJN022</i>
<i>IC</i>	<i>9238A-0080</i>

No special access codes or permissions are required to go through the above steps beyond entering a user-defined password to protect against unauthorized access to the device.

2. The information is stored on the device, no special accessories or supplemental plug-ins (e.g., a SIM/USIM card) are required to access the information.(YES or NO) NO

2. Users are provided specific instructions on how to access the information.

In the User Manual

C. Labeling for Importation and Purchasing

1. Products utilizing e-labels are required to have a physical label on the product at the time of importation, marketing and sales. For devices imported in bulk and not packaged individually, a removable adhesive label or, for devices in protective bags, a label on the bags is acceptable for this purpose. Any removable label shall be of a type intended to survive normal shipping and handling and must only be removed by the customer after purchase. For devices imported already in individual packages ready for sale, the information may alternatively be provided on the package. It shall contain:

1. The FCC ID and/or the DoC logo (if applicable); and
2. Any other information required by specific rule to be provided on the surface of the product unless such information is permitted to be included in the User's manual or other packaging inserts.

The Model number is present on the device back plate; The FCC ID/IC Number is present on the e-label.

D. Other considerations

1. The above information must be programmed by the responsible party and the information must be secured in such a manner that third-parties cannot modify it.

The e-label of the device is programmed by BlackBerry and secured in such a manner that it cannot be modified by third-parties.

2. All the applicable regulatory information required on the packaging or user instructions must be provided according to the rules even if it is displayed electronically. For example, hearing aid compatibility (HAC) ratings for the phones as specified in 47 C.F.R. § 20.19.

Applicable regulatory information not found in the e-label is contained in the user manual, as set forth in the response to Question A.1 above.
