Safety and use

We recommend that you read this chapter carefully before using your phone. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the nstructions contained herein

TRAFFIC SAFFTY:

When driving do not use your phone and headphone to listen to music or to the radio. Using a headphone can be dangerous and forbidden in some areas. When switched on, your phone emits electromagnetic waves

that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no do not place your phone on top of the dashboard or within an

- airbag deployment area. check with your car dealer or the car manufacturer to make
- sure that the dashboard is adequately shielded from mobile phone RF energy.

CONDITIONS OF USE:

You are advised to switch off the telephone from time to time to ontimize its performance Switch the phone off before boarding an aircraft.

Switch the phone off when you are in health care facilities, except in designated areas. As with many other types of equipment now in regular use, mobile telephones can interfere with other electrical or electronic devices, or equipment using radio

Switch the phone off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, petrol station, or chemical plant, or in any potentially explosive When the phone is switched on, it should be kept at least 15 cm

from any medical device such as a pacemaker, a hearing aid or insulin pump, etc. In particular when using the phone, you should hold it against the ear on the opposite side to the device, if any.

phone to your ear. Also move the handset away from your ear while using the "hands-free" mode because the amplified volume might cause hearing damage

Do not let children use the phone and/or play with the telephone and accessories without supervision. When replacing the cover note that your phone may contain

substances that could create an allergic reaction. Always handle your phone with care and keep it in a clean and dust-

Do not allow your phone to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc). The manufacturer's recommended operating temperature range is -10°C to +55°C

er 55°C the legibility of the phone's display may be impaired. though this is temporary and not serious. Emergency call numbers may not be reachable on all mobile

network. You should never rely only on your phone for emergency Do not open, dismantle or attempt to repair your mobile phone disorders

Do not dron, throw or hend your mobile phone

Do not use the phone if the glass made screen, is damaged, cracked or broken to avoid any injury. Do not paint it.

Use only hatteries, hattery chargers, and accessories which are recommended by TCL Communication Ltd. and its affiliates and are ompatible with your phone model, TCL Communication Ltd. and its affiliates disclaim any liability for damage caused by the use of other hargers or batteries.

ember to make back-up copies or keep a written record of all important information stored in your phone ome people may suffer epileptic seizures or blackouts when

sed to flashing lights, or when playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts, or if you have a family history of such occurrences. consult your doctor before playing video games on your phone or enabling a flashing-lights feature on your phone.

To avoid hearing impairment, pick up the call before holding your Parents should monitor their children's use of video games or other features that incorporate flashing lights on the phones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eve or muscle twitching loss of awareness, involuntary movements, or disorientation. To limit the likelihood of such symptoms, take the following safety precautions: Do not play or use a flashing-lights feature if you are tired or need

- Take a minimum of a 15-minute break hourly.
- Play in a room in which all lights are on.
- Play at the farthest distance possible from the screen
- If your hands, wrists, or arms become tired or sore while playing stop and rest for several hours before playing again.
- If you continue to have sore hands, wrists, or arms during or after playing, stop the game and see a doctor.

When you play games on your phone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow the instructions to avoid problems such as tendinitis, carpal tunnel syndrome, or other musculoskeletal PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high olume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

Following air regulation, the battery of your product is not charged. Please charge it first

Before removing the battery from your phone, make sure that the phone is switched off. Observe the following precautions for battery use:

- Do not attempt to open the battery (due to the risk of toxic fumes and hume) Do not puncture, disassemble or cause a short-circuit in a
- Do not burn or dispose of a used battery in household rubbish

or store it at temperatures above 60°C Batteries must be disposed of in accordance with locally applicable

environmental regulations. Only use the battery for the purpose for which it was designed. Never use damaged batteries or those not recommended by TCL Communication Ltd. and/or its affiliates. This symbol on your telephone, the battery and the

Before a mobile phone model is available for sale to the public The chargers designed for your mobile phone meet with the compliance with national regulations and standards must be shown.

The highest SAR value for this model mobile phone when tested is

mobile phones and at various positions, they all meet the government requirement for RF exposure For hody-worn operation, the mobile phone meets FCC RF exposure guidelines provided that it is used with a non-metallic accessory with the handset at least 10 mm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.

Additional information on SAR can be found on the Cellular Telecommunications & Internet Association (CTIA) Web site: http://

The World Health Organization (WHO) considers that present scientific information does not indicate the need for any special precautions for use of mobile phones. If individuals are concerned they might choose to limit their own or their children's RE exposure by limiting the length of calls, or using "hands-free" devices to keep mobile phones away from the head and body (fact sheet nº193)

Additional WHO information about electromagnetic fields and public health are available on the following website: http://www.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference to radio or television well below the maximum value. This is because the mobile phone is reception, which can be determined by turning the equipment off designed to operate at multiple power levels so as to use only the and on, the user is encouraged to try to correct the interference by power required to reach the network. In general, the closer you are one or more of the following measures:

Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from

that to which the receiver is connected Consult the dealer or an experienced radio/ TV technician for

help. Changes or modifications not expressly approved by the party 1.17 W/kg for use at the ear and 1.54 W/kg and for use close to responsible for compliance could void the user's authority to operate the equipment

While there may be differences between the SAR levels of various For the receiver devices associated with the operation of a licensed

radio service (e.g. FM broadcast), they bear the following statement:

This device complies with Part 15 of the ECC Rules. Operation is subject to the condition that this device does not cause harmful

For other devices, they bear the following statement: This device complies with Part 15 of the FCC Rules. Operation is

subject to the following two conditions:) this device may not cause harmful interference

(2) this device must accept any interference received, including

interference that may cause undesired operation. Your mobile phone is equipped with a built-in antenna. For optimal

operation, you should avoid touching it or degrading it. As mobile devices offer a range of functions, they can be used in

positions other than against your ear. In such circumstances the device will be compliant with the guidelines when used with headset or USB data cable. If you are using another accessory ensure that whatever product is used is free of any metal and that it positions the mobile phone at least 10 mm away from the body.

shared with the main device. It is under your own responsibility to protect your own personal data, not to share with it with any inauthorized devices or third party devices connected to yours. For products with Wi-Fi features, only connect to trusted Wi-Fi networks. Also when using your product as a hotspot (where available), use network security. These precautions will help prevent personal information in various locations including a SIM card, product. Choose your apps and updates carefully, and install from account details, call data, location details and network resources.

accordance with applicable data protection legislation. differences, if any, nor for their potential consequences, which responsibility shall be borne by the operator exclusively.

Removal or altering of the wireless device's event labels or serial.

Warranty.....

TCL Communication Ltd. warrants to the original retail purchaser of this wireless device that should this product or part thereof during normal consumer usage and condition be proven to be defective in material or workmanship that results in product failure within the first twelve (12) months from the date of purchase as shown on your original sales receipt from an authorized sales agent. Such defect(s) will be repaired or replaced (with new or rebuilt parts) at ne company's option without charge for parts or labor directly

Batteries, power adapters, and other accessories sold as in box items are also warranted against defects and workmanship that results in product failure within the first six (6) months period from the date of purchase as shown on your original sales receipt. Such defect(s) will be repaired or replaced (with new or rebuilt parts) at the company's option without charge for parts or labor directly

The limited warranty for your wireless device will be voided if any of the following conditions occur:

- · Non-compliance with the instructions for use or installation, or with technical and safety standards applicable in the geographical area where your phone is used:
- Connection to any equipment not supplied or not recommended by TCL Communication Ltd.:
- Modification or repair performed by individuals not authorized by TCL Communication Ltd. or its affiliates; Changes to the device operating system by the user or third party
- Acts of god such as inclement weather, lightning, power surges.
- fire, humidity, infiltration of liquids or foods, chemical products, download of files, crash, high voltage, corrosion, oxidation;
- numbers (IMFI):

humidity, excessive temperatures or extreme environmental conditions, sand, excess dust and any condition outside the operating guidelines:

- such as framing and non-operative parts: · Damage as result of physical abuse regardless of cause.

commercial loss, to the full extent those damages can be disclaimed by law. Some states do not allow the exclusion or limitation of ncidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may

device is no longer covered by this limited warranty due to time or condition, you may utilize our out of warranty repair options.

How to obtain Hardware Service within the terms of this warranty: Create a user profile (alcatel.finetw.com) and then create an RMA for the defective device. Ship the device with a copy of the original proof of purchase (e.g. original copy of the dated bill of sale, invoice) with the owner's return address (No PO Boxes accepted), wireless carrier's name, alternate daytime phone number, and email address with a complete problem description. Only ship the device. Do not ship the SIM card, memory cards, or any other accessories such as the power adapter. You must properly package and ship the wireless device to the repair center. TCL Communication Ltd. is not responsible for devices that do not arrive at the service center or are damaged in transit. Insurance is recommended with proof of delivery. Upon receipt, the service center will verify the warranty conditions, repair, and return your device to the address provided in the RMA. Check the warranty repair status by going online with the
