Getting to know your ALCATEL ONETOUCH Pop3-5.5 4G

- Camera lens
- Headset port
- Proximity and light sensor
- Indicator light
- Status and notification bar
- Power key
- Volume keys
- Touch screen
- Recent apps key
- Home key
- Back key
- Charging/data port
- Microphone

Phone setup

1. ① Remove the back cover
   ② Turn the SIM card with the chip facing downwards
   ③ Slide the SIM card into its housing

2. Place the microSD card with the chip facing downwards and slide it into its housing. Make sure that it is correctly inserted.

3. To remove the SIM or microSD card, press and slide it out, then install the back cover.

   WARNING!
   To avoid damage to the phone, do not use any other kind of SIM card or any non-standard micro-SIM card cut from a SIM card. You can get a standard micro-SIM card from your service provider.

Touch screen

Navigating your phone

- Use your finger tip to lightly touch the screen.
- Use quick flicks of your finger on the touch screen to swipe up, down, left, and right.
- To return to the previous screen, tap the **Back key** ◁ .
- Tap the **Home key** ○ at any time to return to the main home screen.
- Tap the **Recent Apps key** □ . to access recently viewed apps.
- Tap **Apps** ⁝⁝ to access applications on your phone.

Notifications panel

Access alerts, including new messages, emails and software updates.

- Tap the top of the home screen and drag your finger down to see the Notifications panel.
- Swipe right or left to clear individual notifications or tap ▤ to clear all.
- With notification panel open, tap top of screen again and drag down to expand the quick settings menu.
- Tap ⚙ to access the settings menu.

Personalize

Set wallpaper

- To change your home or lock screen wallpaper, press and hold a blank part of the home screen and tap **WALLPAPERS** .
- Select a wallpaper and tap ✓ to set it. You can also tap **Pick image** for additional options.

Add to home screen

- To add app shortcuts, tap **Apps** ⁝⁝ , press and hold the desired app, and drag it to the home screen.
- To add widgets, press and hold a blank part of the screen and tap **WIDGETS** , press and hold the desired widget and drag it to the home screen.

Organize home screens

- To move widget or shortcut, press and hold it and drag it to a new location. To delete it, drag it to the **X** to **Remove** .
- To organize app shortcuts in a folder, press and hold an icon and drag it so it is on top of another icon and release it. This will create a **Folder** . Drag additional shortcuts to the folder to add them.
- To rename a folder, tap the folder title and then type a new name.

Cricket Apps & Services

These services make using Cricket even better and easier.

My Cricket: Check account balance, make a quick payment, view usage and access support from the palm of your hand.

Cricket Wi-Fi Manager: Helps you save your high speed data by seeking out free and open Wi-Fi hotspots whenever you're near them. Also remembers your favorite Wi-Fi hotspots and connects you automatically. Cricket does the searching so you can do the saving.

Cricket Voicemail: Quickly view, access and play back your voicemail messages. Easily save important numbers to your Favorites list and respond to messages by calling back or texting.

Deezer: Listen on-the-go with ad-free streaming music, download your favorites to your phone and get customized playlists based on your preferences.

Mix

Mix is more than just a music player. Listen, stream and mix songs all through one app. Create playlists from songs you own and also listen to music from the Deezer for Cricket app.

Listening to music

1. From the home screen, tap **Apps** ⁝⁝ .
2. Tap **Mix** .
3. Tap a song in the music library to listen to or tap ☰and then **Deezer** to login to your Deezer account.

Mixing Music

Be the life of the party! DJ like a pro. Mix, scratch, and add effects to playlists at a touch of a button.

1. Swipe left or right to advance to the previous or next track.
2. Move your finger back and forth on the turntable to scratch.
3. Tap Automix to turn on auto DJ features.

Rotate your device to access advanced DJ mode.
1. Tap ▦to turn on manual mixing.
2. Tap ▦to add effects to the songs playing, move sliders to switch between tracks, adjust playing speed etc.
3. Tap ●to start recording, tap again to save the mixed song. For additional features, refer to the user manual.
